<TEXT>I am a retired senior citizen on a limited income. In this day and age when the price of most services is going up, I need to be able to count on my phone service to reflect my actual usage. I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I make few long distance calls. Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

My wireless service is very important to me. I do not use it

often, but I rely on it to help keep me safe. I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair! Please remember the importance of individual needs, and don't cater to making more, and unfair, profits for big business!

Sincerely,

June Vogel
